

# Cycling course to visit the traces of the railroad while feeling the wind of the Sea of Japan

Starting from Naoetsu, the birthplace of Niigata Prefecture's railroad system. You can proceed to the Kubiki Bicycle Path along the coast, taking in the scenery of the Gotsu Coast that appears as you pass through the town. Then, from there, you can ride through the scenery with retro station buildings and railroads, or ride along the seaside path along the Kubiki Bicycle Path, which was built on the site of a former railroad line. The goal of the cycling course, which is full of photo spots, is Umiterasu Nadachi. At Umiterasu Nadachi, you can shop for souvenirs and marine products, and enjoy hot springs.

**F** Torigakubi Tunnel is a shelter that tells the history of the old railroads that protected trains on the precipitous cliffs. We can go through it.

**D** The view of the Sea of Japan from Tanihama Park on the hill is spectacular.

**B** Gotsu Coast with its beautiful sea scenery that appears as you pass through the town of Naoetsu.

**G** With a large bath, restaurant, fresh fish market, and hotel, "Umiterasu Nadachi" will satisfy you by shopping for souvenirs and dining. A dip in the hot spring will relieve the fatigue of your bicycle tour.

**E** Arimagawa Station is popular for its old station building and sea view.

**C** Enjoy the railroad scenery from the Tanihama Tetsumi Deck, which was built to view the railroad.

## Sea of Japan
